Don Norseth
Distribution Engineer

Dear Don:

to date I have made 12 trips to Pot Creek in connection with deliveries & distribution of Pot Creek water.

Currently I am releasing water to the Fish & Game from the Siddoway Res. & will have to make at least one more trip to complete this release. The Colo. Users still have 238 A.F. coming from the Matt Warner & should they decide to call for this water I will be required to make two more trips.

The above mentioned trips will exceed the budget of 12 trips - Please advise if it is OK to go ahead & complete the work & charge above the budget.

Thanks

Dave R.
